“Hi, this is Bog Frog with a tip on water conservation.	00:01 00:05
Taking a long shower wastes water. But showers also account for two thirds of your water heating costs	00:05 00:12
(Oversize shower head)	00:12
If you're not sure whether or not your shower head is wasting water, there is a simple test that you can try.	00:19

<p>To see if your shower head is wasting water, hold an empty half gallon paper milk carton under the running shower head.</p>	<p>00:41</p> <p>00:48</p>
<p>If the carton fills in less than ten seconds, you could save water, money and energy by installing a low flow shower head.</p>	<p>00:48</p> <p>00:56</p>
